5ml = 1 tsp

15ml = 1 Tbsp

30ml = 1 oz

946ml = 1 Qt

1 Gal = 3.785 L

1 Gal = 128 oz

SOIL PREPARATION: Mix in 2 lbs. Crab Shell and 2 lbs. Kelp Meal per 100 lbs. of potting mix.

VEGETATIVE:

Place into growing medium once rooting is complete.

Week 1- ½ oz Seaweed per gallon of water.

*Watering between weeks 1 & 2, use ½ oz Seaweed.

Week 2- 1 oz Blend per gallon.

*Watering between weeks 2 & 3, 1oz Seaweed.

Week 3- 1 oz Fish per gallon.

*Watering between weeks 3 & 4, ½ oz Fish and 1 oz Seaweed.

FLOWERING:

Week 4- 1 oz Fish per gallon.

*Watering between weeks 4 & 5, 1 oz Blend.

Week 5- 1 oz Blend per gallon.

*Watering between weeks 5 & 6, 1 oz Seaweed.

Week 6- 1 oz Blend per gallon.

*Watering between weeks 6 & 7, ½ oz Blend.

Week 7- 1 ½ oz Seaweed per gallon.

*Watering between weeks 7 & 8, 1 oz Seaweed.

Week 8- 1 ½ oz Seaweed per gallon.

*Watering between week 8 & 9, ½ oz Seaweed and 5 ml Molasses.

Weeks 9 – 12 or until harvest time, ½ oz Seaweed and 10 ml Molasses per gallon.

*Watering throughout the final weeks, continue ½ oz Seaweed and 10 ml Molasses per gallon.

**Don't overlook the foliage when you feed and water.
